Section 68 designates a segment of Woodland Street in Davidson County as the “Officer John R. Anderson, IV Memorial Highway” and directs TDOT to erect suitable signs.

FISCAL IMPACT OF BILL AS AMENDED:

Increase State Expenditure – \$2,700/FY22-23/Highway Fund

Other Fiscal Impact – Not Significant to State and Local Government - However, to the extent non-state funds are received from a local government, there will be a one-time permissive increase in local government expenditures of \$150 per sign. In all such instances, the one-time permissive increase in local government expenditures is estimated to be \$19,500.

Assumptions for the bill as amended:

- The cost to manufacture and erect a sign \$150.
- Pursuant to Tenn. Code Ann. § 54-1-133(a), TDOT, subject to appropriation by the General Assembly, shall fund from the Highway Fund the cost of signage and marking of an interstate, United States highway, or state highway designated as a memorial highway or memorial bridge for any of the following individuals killed in the line of duty:
 - A member of the military, including the reserves and national guard; or
 - Any state or local public safety official, including, but not limited to, members of the highway patrol, county law enforcement officials, local police officers, firefighters, whether paid or volunteer, and emergency medical personnel.
- The fiscal impact for Sections 1(a), 1(b), 1(c), 1(e), 1(f), 1(g), and 68 is estimated to be an increase in state Highway Fund expenditures of \$2,100 (7 x \$150 x 2 signs) in FY22-23.
- Section 1(d) would require four signs for a total one-time expenditure of \$600 (\$150 x 4 signs).

- The total increase in state Highway Fund expenditures in FY22-23 will be \$2,700 (\$2,100 + \$600).
- The fiscal impact for Sections 2 - 66 is not significant to state and local government, unless non-state funds are received from a local government, in which case there will be a one-time, permissive increase in local government expenditures in FY22-23 of \$150 per sign.
- Sections 2, 4-21, and 23-66 will require two signs each. Section 3 will require four signs. Sections 22 and 67 will require no signage, as it is moving current signage to another location.
- The total number of signs is estimated to be 130 $[(63 \times 2) + (1 \times 4)]$.
- Under the provisions of this legislation, the maximum one-time, permissive increase in local government expenditures in FY22-23, to the extent that non-state funds are received from a local government, is estimated to be \$19,500 ($\150×130 signs).
